EDUCATION

CUNY College of Staten Island

Bachelor of Science in Computer Science/Mathematics

Expected May 2027

Relevant Coursework: Practical Machine Learning, Computational Linear Algebra, Introduction to Database Systems Analysis of Algorithms, Mathematical Proofs, Digital Systems Design, Data Structures, Software Design

SKILLS

Programming: C++, SQL, Command Line Interface, Python, HTML, CSS, Javascript, Node.js

Software: Git/GitHub, Excel, Canva, Adobe Photoshop

RELEVANT WORK EXPERIENCE

CUNY High-Performance Computing Center | Staten Island, NY, October 2025 – March 2026

Software Developer

- Assisting in the design and implementation of a publications-database by developing SQL schemas,
- writing data ingestion procedures from web-scraped sources, and building query tools to allow lookup
- of faculty publications.

CUNY College of Staten Island | Staten Island, NY, September 2023 – May 2024

Technical Support

- Provided technical support to students, faculty, and staff by troubleshooting computer, printers,
- Maintained and monitored library computers, printers, and photocopiers to support reliable daily operations.
- Responded to technical incidents and service issues, helping restore access and minimize disruption.

PROJECTS

CUNY Research Multi Light Band Analysis of Concentration, Asymmetry & Smoothness (CAS) of E+A Galaxies | May 2026 — Present

Lead Software Engineer

- Analyzed 20 TB of Vera Rubin Observatory LSST data to identify post-starburst (E+A) galaxy candidates
- Developed Python and SQL workflows to filter ~100,000 galaxies and isolate 103 targets using multi-band photometry
- Calculated Concentration, Asymmetry and Smoothness (CAS) parameters using image processing and rotational symmetry Techniques.

Patients Management Interactive Program | March 2025 — May 2025

Software Engineer

- Built a C++ hospital patient management system using a hash table for O (1) average-case patient lookup and record management.
- Developed a menu-driven CLI for patient check-in/out, record retrieval and operating room scheduling.

RELATED WORK EXPERIENCE

American Campus Communities | Staten Island, NY

Senior Resident Assistant | **Resident Assistant** August 2024 – Present

Promoted to Senior Resident Assistant, May 2026

- Lead and support Resident Assistants and assist with daily community operations.
- Respond to residents' concerns, emergencies, and safety incidents, using strong judgment and problem-solving skills
- Coordinate with residents, staff, and maintenance teams to resolve issues and maintain smooth operations.
- Maintain organized records and manage multiple responsibilities in a fast-paced environment.

AWARDS

CUNY Research Scholars Program | 2026 Symposium Award for Best Research Poster.
